EDUCATION

Quantum University, Roorkee (UK)
Bachelor of Engineering in Computer Science (CGPA: 8.35)   **(2021-2025)**

12th (Senior Secondary Examination)
CBSE Board   **(2020-2021)**

10th (Secondary Examination)
CBSE Board   **(2018-2019)**

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, C
Frameworks: React, Tailwind CSS, Bootstrap, Node.js, Express.js
Database Management: MySQL, MongoDB
Cloud Services: Vercel, Render
Version Control: GitHub

EXPERIENCE

Mern Stack Developer Intern | Webstack Academy |Remote   **Feb 2024 – April 2024**
- Developed and enhanced the frontend and backend of the client's website using React and the MERN stack, ensuring a seamless and responsive user experience across devices.
- Collaborated with the design team to implement visually appealing and user-friendly interfaces, following provided references and guidelines.
- Improved skills in frontend optimization, responsive design, and cross-browser compatibility.

Java Developer Intern | Oasis-Info- byte | Remote   **Mar 2023 – April 2023**
- Played a role in four diverse projects, demonstrating adaptability and comprehensive technical expertise, particularly enhancingproficiency in front-end for successful project delivery.
- Demonstrated expertise in crafting a diverse range of applications, creating visually captivating and user-friendly ATM interfaces, number guessing game that prioritize both technical sophistication and aesthetic appeal.

PROJECTS

Talk-a-Tive (Chat Application) *talk-a-tive-pi.vercel.app.*   **Jun 2023 – Aug 2024**

- Developed **"Talkative," a chat application** with user authentication and guest access, including features like search user, display user profile, one-on-one chats, and group creation.
- Integrated **Socket.io for real-time messaging**, providing instant notifications and seamless communication for both individual and group chats.
- Implemented this website using MongoDB, Express.js, React, Node.js **(MERN stack)** focusing on creating an user-friendly interface and seamless chat experience.

Wanderlust (Travel and Tourism) *https://wanderlust-q41m.onrender.com*   **Jan 2023 – Mar 2024**

- Developed a Full Stack Wanderlust (Travel and Tourism) app used as a platform for booking accommodations, including **homes,apartments, vacation rentals, and unique stays**, in various locations around the world.
- Wanderlust experience **showcases customer service, facilities, sales skills**, and adept problem-solving abilities.
- Implemented and fine-tuned site using MERN stack. Users can plan his journey and **shows a real time location of place**.

ACHIEVEMENTS
- **Geeks for Geeks Distinction :** **Top 5 at my college** on the GFG Coding platform, showing consistent coding excellence.
- **Awarded Girls Scholarship :** Honored with the **SKF Girls Scholarship** throughout my B.Tech program for best academic performance and dedication to excellence.
- **Graph-e-thon Hackathon :** Finalist in **Graph-e-thon**. It was **a national level hackathon organized by the unstop**.
- **Runner-up in Drawing Competition** : Runner-up in inter-Schools drawing competition organized by **Bajaj**.
- **Survey Paper Published :** A survey published in international journal for innovative engineering and management Research. Presented a paper entitled **Calories Burnt Prediction System using Machine Learning**.
